# EDUPOWER BROCHURE

# OUR MISSION

The mission of **EDUPOWER** is competence flow to enterprises. Operational excellence through applied project and competence work using Lean Sigma thinking. Utilizing higher education knowledge resources and industry best practices to the benefit of both. In project work, training and in consultation tasks, we strive to maximize productivity, quality and customer satisfaction, through the application of Lean principles.

Our activities are divided into:

**EDUPOWER** Energy Management  
**EDUPOWER** Nordic Institute (ENI)

## ENERGY MANAGEMENT

EDUPOWER is active nationally as well as in the emerging markets in South-East Asia and in the Nordic countries. We have accumulated decades of experience in solid fuel power project design and implementation. Based on long-term international experience of power plant project development and delivery we can assess power plant project feasibility and profitability, and support their implementation and capital investments.

### **Our products and services include:**

- Power plant and energy project consulting
- Training for companies and organizations
- Project cooperation between industry and higher education
- Surveys

### **We offer education under the forms of:**

about Lean Six Sigma and how it can be applied in the real life."*

## WHAT PROBLEMS ARE YOU FACING WITH?

- Competition is global. The state-of-the-art methods of yesterday do not guarantee competitiveness tomorrow.
- High operation costs result in low margins
- Long lead times.
- Companies lack systematical ways to solve problems, which prevents their growth.
- Out- of- date management methods and no time for improvement.
- No answer to the question how to achieve better productivity and profitability with limited resources.

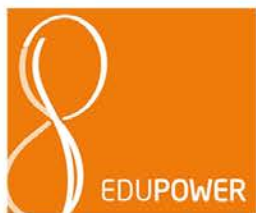

## HOW DO WE HELP YOU SOLVE THESE PROBLEMS?

- Customized Lean studies.
- Production optimization using Lean thinking.
  - Development of Operational Excellence.
    - Expert help and consulting.
  - Education of staff in Lean operation.
    - Business development projects.

***"This motivates us to keep running with the development projects."***
