BLAXAR

When coating matters

Cooperation with Blaxar Oy

What challenges in your operations made you look for an external party?

- *We wanted everyone in the company to be involved in continuous improvement, not only on a one-off basis, but in the long term.*

How did you end up choosing Edupower and what do you find most attractive in our company and services?

- *Edupower had the tools and know-how needed to carry out the project.*
- *Good sparring and high professionalism*
- *Experience in industrial production*

Three words describing your experience with Edupower, and why would you recommend us to others?

- *Understanding customer needs*
- *Activating employees*
- *Getting results*

Results and benefits of cooperation

- *Reduction of clogging in the automatic painting line as well as monitoring*
- *Paint storage shelves, order and clear instructions for painters*
- *Place for tool hooks*
- *The lighting in the painting hall was fixed, added and optimized*
- *Morning meetings as a routine*
- *Visualization and production tracking for the work manager*

A free description of the content of the collaboration project?

- *As a tool for production development, the A3 was considered very good.*

Staff comments on sessions:

- *"The lighting turned out really good"*
- *"The warehouse has never been this neat"*
