Collaboration with Oy GS-System Ab

What challenges in your business made you look for an external business partner?

- *We needed to simplify and automate functions in our follow-up of our orders for a smoother workflow*

Why did you choose Edupower Oy Ab?

- *Edupower was able to offer the updates we needed cost-effectively and remotely in our Excel files*
- *Flexibility and expertise*
- *Previous collaboration and understanding of our industry*

Three words that describe your experience with Edupower, and why you would recommend us to others?

- *They consider our customers' needs*
- *Reliable delivery*
- *Smooth collaboration*

Results and benefits of cooperation

- (a) support for GS-System to develop its new product "sliding door"
- (b) Support for the acquisition of a new digital service with the display of 3D drawings to customers using CAD-viewer
- (c) To support the new product, it is necessary to use IT tools for the correct meters, processes and Analyses. Support in the above-mentioned process in the form of Coaching and digital 5S.

Free description of the content of the cooperation?

- *Clarity and better overview of ordered material and what has been delivered and when.*
